Career Objective

DevOps enthusiast with hands-on experience in Linux, AWS, Jenkins, Docker, and Kubernetes. Skilled in building CI/CD pipelines, automating deployments, and managing cloud infrastructure. Eager to apply DevOps practices in real- world environments while continuously enhancing system performance and reliability.

Education

MCA	Poornima University Jaipur	**2027(Current)**
BCA	Lachoo Memorial College Of Science And Technology,Jodhpur	**74% 2025**
12th	Siddharth Vidhya Mandir Senior Secondary School ,Barmer	**78% 2022**
10th	Siddharth Vidhya Mandir Senior Secondary School ,Barmer	**68% 2020**

Projects

Website:- This section offers timed, level-based programming quizzes to progressively test users' coding knowledge

AQI:- This project provides real-time AQI monitoring for multiple locations, enabling users to view pollution levels, receive health recommendations, and track environmental conditions over time.

Cloud-Native CI/CD Pipeline using Kubernetes & Terraform

- Designed and implemented a complete CI/CD pipeline on AWS using Jenkins, Docker, Kubernetes, and Terraform
- Automated application build, deployment, and scaling for containerized environments, minimizing manual effort
- Utilized Terraform to manage infrastructure as code, ensuring consistency across deployments
- Connected GitHub with Jenkins to enable continuous integration and streamlined automation workflows

Skills

- Programming Languages: Java, Python, C/C++
- Database Management: MySQL,Xamp
- Operating Systems: Linux
- Web Technologies: HTML, CSS, JavaScript
- Containers: Docker , Kubernetes
- DevOps Tools: Git, GitHub, Jenkins
- Cloud: AWS

Certifications

Devops Engineer ,Web Development
